

Sprint 3 Report

Product Name: MemLock

Team Name: Remind by Location

Date: Feb 22

- **Actions to stop doing:**
 - Don't use random variable names that are confusing
- **Actions to start doing:**
 - Comment or write more easily understandable code
- **Actions to keep doing:**
 - Keep communicating with each other and what is done and what needs to be done
- **Work completed/not completed:**
- **Completed:**
 - Add a location field to items (3 hours)
 - Set up a hook or some other system to run every so often and pull the current location from the backend API (3 hours)
 - Compare current location to the locations listed in todo list. (2 hours)
 - If current location is same as one on todo list send todo make popup (will send this to phone next sprint) (2 hours)
- **Not Completed:**
 - Currently the notification is just highlighting the background of the task that is timely, but it's proof of concept that it works.
 - Just need to work out visual bug for location on front end
 - And send notification to user to reach MVP

- **Work completion rate:**

Final Burn-up Sprint 3
