Sprint 2 Report

Product Name: MemLock
Team Name: Remind by Location
Date: Feb 8

- **Actions to stop doing:**
  - Forgetting to do tsrs
  - Not writing tests in code
- **Actions to start doing:**
  - Communicate more with front end team and vice versa as we connect the two
  - Set more ambitious goals for sprints
  - Figure out how long tickets will take in a more efficient way
    - Plan some backup tasks we can pick up in case we estimate incorrectly
- **Actions to keep doing:**
  - Keep working on our tasks and finishing them in a timely manner
- **Work completed/not completed:**
- Completed:
  - Build js web router (4h)
  - Build interface between iOS location app and js backend (4h)
  - Adding a location input that will give coordinates that can later be sent to the backend (through an API)(4h)
  - Get coordinates from the location that can be sent to the backend (1h)
  - Adding a calendar date that can compare to the current date (through API)(4h)
  - Get the time stamp that can be compared to current time(1h)
- Not Completed:
  - For next sprint(connect frontend and backend)
    - I.e. Supply FE with location information

- **Work completion rate:**

## Final Burn-up Sprint 2
